

MATRIX F12

Razor-sharp printing - for letters which shine with professionalism. Contemporary franking can be so simple and always up to date thanks to online rate updates.

One touch ahead

MATRIX F SERIES. PROVEN DESIGN - THE LATEST TECHNOLOGY.

The Matrix F series is proof of our claim to make mail processing highly efficient, convenient and simple.

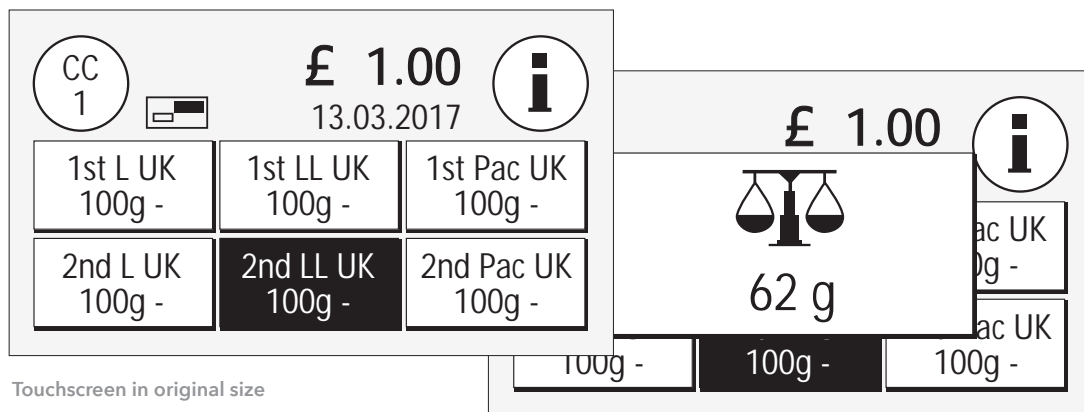

Matrix F series: The latest generation of franking systems for a wide range of applications. Each franking system is matched optimally to your needs and volume of mail. All Matrix F series units are operated exclusively from a touchscreen.

OneTouch means "touch - stamp". It is based on an ingenious, self-explanatory operating concept. The buttons for various postal products can be programmed however you wish.

Ethernet LAN interface (RJ45) for integrating the franking system into a corporate network and for communications with FramaOnline2 via the Internet.

Optimized printing system: HQ mode with a resolution of 600 dpi for printing razor-sharp advertising stamps or text messages.

Matrix F12 - For the best overall impression!

Pop-Up weight display

The Matrix F12 stands for intelligent franking

- Large back-lit touchscreen display with 18 OneTouch functions
- Integrated Ethernet LAN interface (RJ45)
- Perfect integration of the scale with pop-up weight display and automatic postage recalculation
- 9 cost centres (can be expanded) with clear text designation in reports
- 3 freely definable advertising stamps, 3 built-in graphic messages and 2 text messages which can be freely entered: flexibility with a professional appearance for your outgoing mail
- Top-quality printing of postage amount and your advertising stamp with HQPrint
- 10 mm thickness capacity, integrated discharge of letters to the side
- Extremely user-friendly, totally self-explanatory
- Always the latest postage rates thanks to an online synchronisation via FramaOnline2
- Suitable for letter volumes up to 50 letters/minute

Matrix F12. For the best overall impression.

PRODUCT HIGHLIGHTS:

Touchscreen

You have at your disposal 18 One-Touch functions for the most frequently used mailing products. The generously sized display gives you the required overview. The patented ComTouch™ operator interface displays only that information which is needed at the time. Touch and stamp!

Perfect integration of the Scale

How heavy is this letter?
The pop-up weight display in the Start menu shows the actual weight in a flash and automatically calculates the postage amount.
Nothing could be simpler!

Side ejections of letters

A printed letter is discharged automatically to the side, so your hands are already free to feed in additional letters.
This adds speed to mail processing!

Integrated communications is our mission.

For more than 45 years, the Frama Group has specialised in the development, manufacture, and international sales of mail processing, data management, and communications solutions. Systems that are used successfully in more than 50 countries on five continents.

Convenient, easily accessible, process-oriented letter and parcel solutions create added value for our customers. And important, confidential and sensitive e-mails with proof of delivery, proof content and time as well. Our objective is added value and communications security, no matter what content or channel. Integrity in communications is the core of our services.

Frama delivers high-quality communications solutions. Letters, packages, e-mails. Integrated, convenient, and trustworthy. Proof of transaction. Verified. Yesterday, today, and tomorrow.

We uniquely combine the benefits of letters and the digital world. Delivery, content, and hand-off are now widely available for digital information exchange. Across borders, verifiable, documented. Information and data packages are provided with new quality in delivery. Security and confidentiality guaranteed. For sender and recipient. Physical or digital, all from one provider.

Frama focuses on specific technological and system competence. The sophisticated balancing, comparing and managing of sensitive, confidential data and funds between users and service providers requires efficient, highly available management and system solutions that meet the highest standards of security.

More than 100,000 customers all over the world receive support from our ten subsidiaries and about 40 specialised business partners. Our customers are publicly and privately held companies, service organizations, postal authorities and service providers, taxation and finance agencies, trust services, and government institutions and many more.

The environmental performance of the products and processes is constantly being improved. Frama AG pursues the goal of developing solutions that combine efficiency, high quality, and a high degree of environmental compatibility. All products and services comply with international quality standards. This is guaranteed with certificates which are verified in regular audits by independent certification bodies and institutes.
