

# MATRIX F22 / F32

Large colour display - for a better overview when selecting the proper mailing product.  
A well thought-out system for a wide range of letters.

One touch ahead

# MATRIX F SERIES. PROVEN DESIGN - THE LATEST TECHNOLOGY.

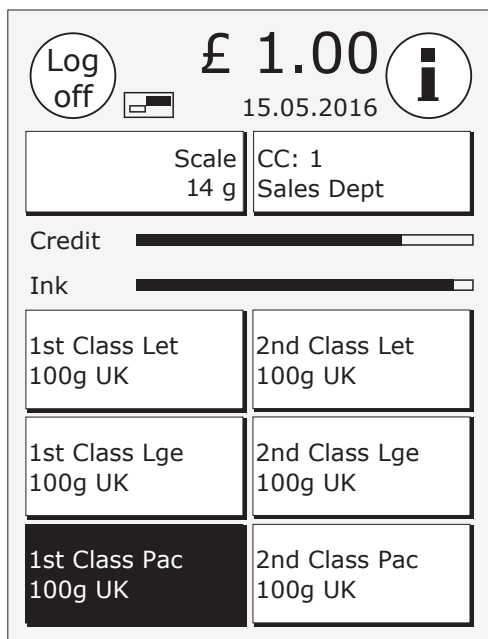

The Matrix F series is proof of our claim to make mail processing highly efficient, convenient and simple.

Matrix F series: The latest generation of franking systems for a wide range of applications. Each franking system is matched optimally to your needs and volume of mail. All Matrix F series units are operated exclusively from a touchscreen.

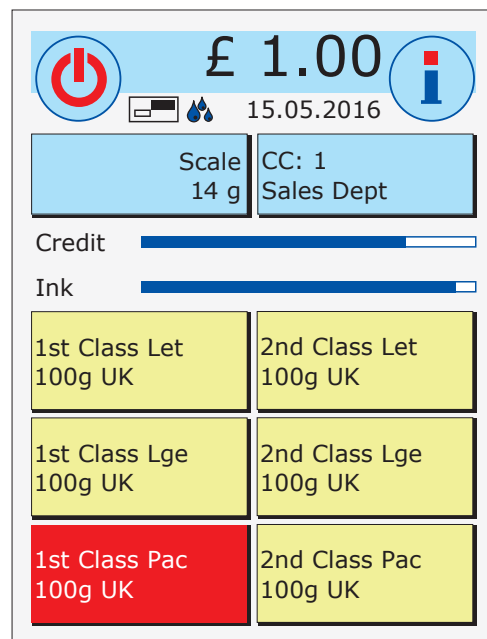

Ethernet LAN interface (RJ45) for integrating the franking system into a corporate network and for communications with FramaOnline2 via the Internet.

Optimized printing system: HQ mode with a resolution of 600 dpi for printing razor-sharp advertising stamps or text messages.

OneTouch means "touch - stamp". It is based on an ingenious, self-explanatory operating concept. The buttons for various postal products can be programmed however you wish.

- 10 mm thickness capacity along with integrated discharge of letters to the side
- Semi-automatic feeding (Matrix F32) for added comfort and flexibility
- Always the latest postage rates thanks to an online synchronisation via FramaOnline2
- Speed of the Matrix F32: up to 50 letters/minute
- Speed of the Matrix F22: up to 27 letters/minute

Matrix F22

### Touchscreen with color display

We make available to you 30 keyless OneTouch functions for the most frequently used mailing products (24 on the F22). The generously sized colour display (monochrome on the Matrix F22) gives you an excellent overview. The patented ComTouch™ operator interface displays only that information which is needed at the time. Touch - stamp!

### Advertising stamps

Thanks to HQ printing mode with a resolution of 600 dpi, advertising stamps appear in high contrast and razor-sharp on a wide variety of envelopes - the final touch to your mailing!

### Plug & Play

Commissioning and maintenance are child's play - just as you would expect from a plug & play system!

### Weighing a stack of mail items

With Frama, you can take this for granted: weighing a stack of mail items. Further optimise your mailings! Automatic weighing and postage calculation of a letter from a stack and subsequent franking - done properly and efficiently. If you prefer to weigh your letters individually - not a problem! All automatic functions of stack weighing mode are also available to you for individual letters.

## Integrated communications is our mission.

For more than 45 years, the Frama Group has specialised in the development, manufacture, and international sales of mail processing, data management, and communications solutions. Systems that are used successfully in more than 50 countries on five continents.

Convenient, easily accessible, process-oriented letter and parcel solutions create added value for our customers. And important, confidential and sensitive e-mails with proof of delivery, proof content and time as well. Our objective is added value and communications security, no matter what content or channel. Integrity in communications is the core of our services.

Frama delivers high-quality communications solutions. Letters, packages, e-mails. Integrated, convenient, and trustworthy. Proof of transaction. Verified. Yesterday, today, and tomorrow.

We uniquely combine the benefits of letters and the digital world. Delivery, content, and hand-off are now widely available for digital information exchange. Across borders, verifiable, documented. Information and data packages are provided with new quality in delivery. Security and confidentiality guaranteed. For sender and recipient. Physical or digital, all from one provider.

Frama focuses on specific technological and system competence. The sophisticated balancing, comparing and managing of sensitive, confidential data and funds between users and service providers requires efficient, highly available management and system solutions that meet the highest standards of security.

More than 100,000 customers all over the world receive support from our ten subsidiaries and about 40 specialised business partners. Our customers are publicly and privately held companies, service organizations, postal authorities and service providers, taxation and finance agencies, trust services, and government institutions and many more.

The environmental performance of the products and processes is constantly being improved. Frama AG pursues the goal of developing solutions that combine efficiency, high quality, and a high degree of environmental compatibility. All products and services comply with international quality standards. This is guaranteed with certificates which are verified in regular audits by independent certification bodies and institutes.
