# PRINT ALIGNMENT FOR THE MATRIX F12

1. Select further information

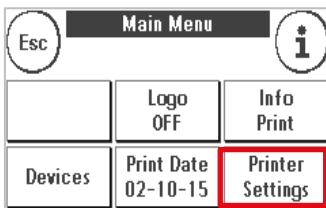

Start Menu:
Press the "i" key in top right corner of screen.

2. Select Printer Settings

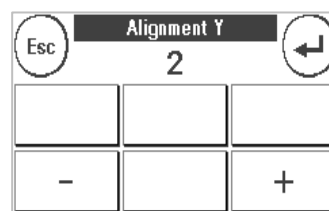

Main Menu:
Select "Printer Settings" in the bottom right of the screen.

3. Select Print Alignment

Menu Printer Settings:
Select "Print Alignment" on right of screen.

4. Perform a Test Print

To perform a Test Print, insert a letter to produce an alignment Test Print.

5. Test Print

The Test Print shows current settings. The arrows should point to where the lines appear straightest.
Example:
Actual: X=-3 / Y=1
Should be: X=0 / Y=2

6. Print Alignment X

Move to setting 0 (for example) with the – and + keys. Confirm entry with "ENTER".
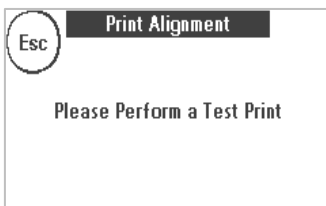

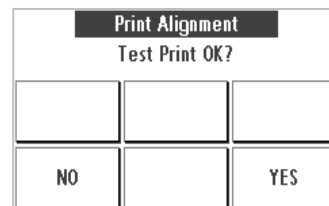

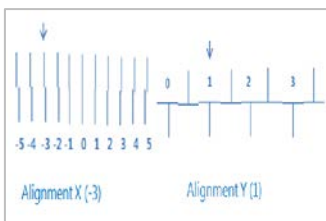

7. Print Alignment Y

Move to setting 2 (for example) with the – and + keys. Confirm entry with "ENTER".

8. Repeat the Test Print

Repeat the Test Print.

9. Confirm Test Print

If the Test Print is correct, press "YES" to confirm the settings. Otherwise press "NO" to repeat.
