FRANKING MACHINE
Fx Series 9

Franking redefined. High speed combined with precision, state-of-the-art technology and innovation. Full-featured, reliable, powerful.

FRAMA Fx Series 9
INNOVATIVE AND POWERFUL

Fx Series 9 - innovative.
The powerful solution for modern and professional business mail.

Outstanding features for your mailroom

The Frama Fx Series 9 offers you maximum performance and productivity. The automatic mixed-mail feeder means mail in a wide range of formats can be processed faster than ever before. The precise, dynamic scale automatically determines the exact postage based on size and weight as the mail is being processed, and franks the mail accordingly.

The Fx Series 9 is intuitively flexible: for oversized envelopes and letters exceeding 16mm in thickness, the Fx Series 9 dispenses a label that can be affixed to the envelope, parcel, package or any other item.

Intuitive touch screen operation and easy access to the mail transport system increase the effectiveness and efficiency of your mail processing. The Fx Series 9 thus represents an important investment for every modern and dynamic mailroom.

Frama pursues the goal of developing solutions that combine efficiency and high quality, whilst having minimal environmental impact. All our products and services meet international quality standards.

Product highlights
Fx Series 9

Dynamic scale
The use of the dynamic scale significantly simplifies mail processing. Each item is individually weighed and measured. The postage is thus calculated again for each item. An efficient way to avoid incorrect franking.

Automatic feeding
The automatic feeder with fully automatic adjustment of the letter thickness and format (mixed mail feeding) processes all letter formats from C6 to B4 and seals them on request. No need to adjust anything.

OLS Software Updates
The Frama OLS data centre automatically updates, ensuring that your Fx Series 9 is always up to date.

ABOUT FRAMA & SERVICE FEATURES

At Frama It is our mission to help businesses increase efficiencies and productivity rates as well as provide information mobility throughout an organisation.

Frama is noted for its consultative approach and ability to meet requirements by working with our customers to find the correct solutions and products to meet the needs and wants of your business. This is what makes Frama the most trusted partner for business in this sector.

Frama has the ability to work with businesses and organisations of all sizes and has the flexibility and speed to meet requirements from multi-site requirements, bespoke solutions and secure and efficient packages for home or hybrid workers.

For more than 50 years, Frama has specialised in the development and manufacture of mail processing and secure data management systems. Through the decades, we have produced multiple innovations within the communications world, making us the key solution provider for all aspects of local and international written business communication when efficiency, integrity, and innovation is required.

In today's world where the increase in cyber-crime and compliance regulations are a priority, Frama continues to make cutting-edge innovations in the communications arena.
These include digitising priority business processes such as HR, marketing, sales and finance. It includes ensuring email communication is secure using a unique and easy to use encryption service or the introduction of e-signature software; and implementing a managed print services (MPS) strategy.
Security and automation for your business are, and always have been, Frama's mantra..

Our promise to you:

• Consultative approach – ensuring you are provided with the best solution for your business needs via one of our technology specialists
• Customer service - Each new member of staff is inducted through the Frama CareS programme which highlights our commitment to customer service
• Aftersales - Frama recognises that as well as providing high quality products and tailor made solutions the quality of the after sales service is a major factor when deciding on which supplier to partner with
• Service with a familiar voice - Frama provides a UK based service centre trained to the highest standards of customer care via the Frama CareS customer training modules that all staff attend at regular intervals
• Latest technology - high quality products backed by unrivalled after sales service and support. Providing an end-to-end solution for all sizes of business
• Certification - Frama is certified for IT security as per ISO 27001 and FIPS 140-2 Level 3, the highest security requirement for Cryptographic Modules

integrity in communication.
