

LETTER OPENER

Access B400

It is the only letter opener in the world that can slit and open letters that are up to 10mm thick. If needed, letters can be opened on three sides - and all this with an attractive price/performance ratio.

IT WORKS SO WELL, BECAUSE IT SLITS: FRAMA ACCESS B400

Frama letter openers with slitting technology guarantee the best results

Is your incoming mail still opened clumsily by hand? Is your staff still losing valuable work time that could be used for more important tasks? Have you been aggravated by letters contents that have been cut up?

Frama letter openers do far more than just open your letters: They open the door to more convenient and efficient processing of incoming mail. With the Frama Access B400 letter

opener, you can open letters of various sizes and thicknesses cleanly and rapidly. Its unique technology that slits letters instead of cutting them means that you no longer risk damaged letter contents and need not dispose of cutting waste.

The machine is handy and compact, requires little workspace and very little room for storage. And the functional design matches any office environment.

Those who have larger volumes of mail to handle, need to open large formats directly from the stack, those with thick mailings up to 10 mm or who need to open letters on three sides, will find the Access B400 to be indispensable.

Access B400 - The only device in its class which can open envelopes up to 10 mm thick without cutting!

Seven reasons to get an Access letter opener from Frama

- Forget the daily, tedious job of opening incoming mail by hand!
- Don't be aggravated any longer by damaged letter contents that have been cut to pieces!
- Open all of your letters automatically, lightning fast!
- Work more conveniently and even more efficiently!
- Distribute your daily mail to the responsible departments for even faster processing!
- Use your valuable time at work for more important tasks!
- Invest in a Frama letter opener and by doing so save time and expense - every single day!

PRODUCT HIGHLIGHTS

Slitting instead of cutting

Brilliant!

This reduces the danger of damaging the contents of letters and eliminates problems with paper-clipped correspondence. Further benefits include no bothersome disposal of cutting waste and no risk of paper scraps in the opener.

Great operational convenience

Let's go!

Simply place the stack of letters onto the feed table, push it over the release mechanism and away it goes. No sorting, no pre-setting, no buttons to press. The letters are automatically fed into the slitting device.

Fully automatic

Easily done!

Frama letter openers are switched on and off automatically when letters are inserted. If a letter that is too thick is inserted into the Access B400, it is automatically rejected, making jammed letters a thing of the past.

SPECIFICATIONS COMPARED

	Frama Access B400

* 2 respectively 3 work steps

Thicker items of mail

Take it easy!

The Access B400 slits open letters up to 10 mm thick - with no pre-sorting required, thanks to the machine's automatic adjustment to the letter thickness. The opened letters are neatly stacked before you know it.

Large sized mail?

No problem!

Large format letters up to C4 / B4 can be conveniently inserted and opened with the Access B400. The large feed table enables the Access to process large formats, even from stacks.

Open letters on multiple sides?

Flexibility!

Frama letter openers take care of this for you, opening two sides in two work steps. With the Access B400, you can even open C6/5 and C5 formats on three sides with the letter guide.

Integrated communications is our mission.

For more than 45 years, the Frama Group has specialised in the development, manufacture, and international sales of mail processing, data management, and communications solutions. Systems that are used successfully in more than 50 countries on five continents.

Convenient, easily accessible, process-oriented letter and parcel solutions create added value for our customers. And important, confidential and sensitive e-mails with proof of delivery, proof content and time as well. Our objective is added value and communications security, no matter what content or channel. Integrity in communications is the core of our services.

Frama delivers high-quality communications solutions. Letters, packages, e-mails. Integrated, convenient, and trustworthy. Proof of transaction. Verified. Yesterday, today, and tomorrow.

We uniquely combine the benefits of letters and the digital world. Delivery, content, and hand-off are now widely available for digital information exchange. Across borders, verifiable, documented. Information and data packages are provided with new quality in delivery. Security and confidentiality guaranteed. For sender and recipient. Physical or digital, all from one provider.

Frama focuses on specific technological and system competence. The sophisticated balancing, comparing and managing of sensitive, confidential data and funds between users and service providers requires efficient, highly available management and system solutions that meet the highest standards of security.

More than 100,000 customers all over the world receive support from our ten subsidiaries and about 40 specialised business partners. Our customers are publicly and privately held companies, service organizations, postal authorities and service providers, taxation and finance agencies, trust services, and government institutions and many more.

The environmental performance of the products and processes is constantly being improved. Frama AG pursues the goal of developing solutions that combine efficiency, high quality, and a high degree of environmental compatibility. All products and services comply with international quality standards. This is guaranteed with certificates which are verified in regular audits by independent certification bodies and institutes.
