

DETERMINING POSTAGE VALUES WITH THE MATRIX F12

1. Select Mode

Select "CC Mode", select Cost Centre, enter the PIN and confirm with "ENTER".

2. Selecting a product

Start Menu: Press the OneTouch key for the mail product required.

3. Put a letter on to the scales

Place a letter on to the scales. Depending on the selected weighing mode put one letter (single weighing mode) or a stack of letters onto the scale platform.

4. Confirming the postage value

Esc		0.51	(1-T)
\ge		Z	Å
Add.	260 0		etter
Serv.	20	2699	
		UK	ruug

Touch the scales on the weight pop-up screen to confirm the weight. The postage value will be calculated.

5. Franking the letter

Now simply frank the letter as normal.
