

A&D Recruitment

Specialist recruitment firm A&D, now using Frama RMail for client e-signatures, registered proof and email encryption for GDPR compliance - all without leaving Microsoft Outlook!

“Our team strives to be exceptional when it comes to dealing with our clients and candidates. Privacy and security is also a huge factor to us. We find Frama RMail to be a delight to use. We now send our emails encrypted directly from Outlook, with no portals or awkward requirements on the recipients side. We send documents for signature also using the system, which has seen a major improvement in cash flow and speed of business”

ABOUT A&D RECRUITMENT

A&D are an independent recruitment firm and have been running for over 14 years with extensive industry knowledge in renewable energy and building services.

They provide temporary and permanent recruitment services to businesses across the UK.

THE STORY

The introduction of GDPR meant that the team at A&D Recruitment needed to find a secure way of sending out personal and sensitive information via email.

Mike Roberts - RMail specialist for Frama UK provided the team with not only a simple way to encrypt emails without leaving Microsoft Outlook, but also gave them a way of streamlining their business by accelerating the document signing processes using the inbuilt RMail e-signature facility.

Frama RMail also provided their clients with a link to reply encrypted, meaning that the emails were sent secure from both sides.

CO-OPERATION AND ROLL OUT

Within hours of Mike providing a demonstration of Frama RMail, A&D Recruitment were up and running and has been a fantastic addition to their business from day 1.

THE VERDICT

It is easy to encrypt an email, but it is difficult to provide a system that is widely accepted from all involved parties and at the same time demonstrate compliance towards GDPR.

This is where Frama RMail performs!

A&D Recruitment have implemented an easy to use, well featured and forward thinking solution to demonstrate compliance and to increase efficiency by replacing existing paper based workflows.
